This is absurd. We have asked both sides for access and know told only 4 hours for access a day.

We were told that we could be on sight during operation. What has changed?

We are a sovereign nation that must ensure protection of our resources. And human health. Please help us see this move forward with this.

Have you had a chance to look at emails? Fmc basically booted me out.... They don't have time to do tours.... Can maybe accommodate us from 9-11, and 1-3. Told cliff he should talk with johnathan. You may want to call him ASAP.
